**Attachments:** EPA Comments on HP Rad Work Plan 3.26.18.pdf; ATT00001.htm

Dear Felicia and Ann-Marie,

Your statistician support has been fundamental to almost all the most important issues in these comments. In addition to the formal memos attached, Donna has helped shape and review the majority of the most important issues in the main text. We have been consulting her expert opinion almost constantly. She has helped explain complex concepts to us and guided our thinking in many conference calls with EPA, the State regulators, and the Navy. Without Donna's expertise, we would not have been able to move forward with proposals that all the regulators can support.

Thank you for providing us with her consultation.

Lily

**Subject:** EPA Comments on Draft Hunters Point Work Plan for Radiological Survey and Sampling

Pat,

Thank you for providing for review the *Draft Work Plan, Radiological Survey and Sampling*, Former Hunters Point Naval Shipyard, San Francisco, California ("Work Plan"), February 2018. Attached are EPA's comments on the Work Plan.

In addition, EPA understands that the Navy is also drafting Task Specific Plans for its work on specific parcels, and that the Navy will send the plan for Parcel G for review soon. In anticipation of this forthcoming draft, EPA is also submitting the attached recommendations in advance to inform the development of this draft.

We look forward to working with the Navy to revise the draft Work Plan, to develop Task Specific Plans for individual parcels, and to begin the sampling component of the radiological assessment effort as soon as possible. If you would like to discuss any of these comments, please contact me or Lily Lee.

Sincerely,

John

John Chesnutt
